Nigeria

SUMMARY

Highly skilled and experienced blockchain developer with a strong background in decentralized applications (DApps) and smart contracts development. Proficient in various blockchain platforms, including Ethereum, Binance Smart Chain, and others. Extensive expertise in Solidity smart contract development, Ethereum Virtual Machine (EVM), and blockchain protocols. Experienced in designing, implementing, and testing secure and scalable blockchain solutions. Strong ability to collaborate with cross-functional teams to deliver innovative blockchain projects. Passionate about exploring emerging blockchain technologies and contributing to the advancement of the decentralized ecosystem.

EXPERIENCE

Blockchain Developer

BLOCKCHAIN INNOVATION HUB

10/2023 - Present Ibadan, OYO

The Blockchain Innovation Hub offers training programs to educate individuals on the latest advancements in blockchain technology and help them build products around it.

- Closely collaborated with the product and dev teams to improve the efficiency of the platform by 25%
- Participated in the development of 3 new tools and integrated them into the platform
- Assisted in developing the backend that became the foundation for the intersection between Web3 and FinTech

Software Developer

AFRIMERGE TECHNOLOGIES

Present Nigeria

Afrimerge Limited is a leading Pan African Technology company committed to advancing innovation and digital transformation across the African continent and beyond.

- Participated in the development and maintenance of the application
- Led the team of 2 developers to develop a front-end reporting system for Afrimerge Technologies.
- Designed and developed 2 micro-services

PROJECTS

BLOCKCHAIN CERTIFICATE GENERATION

01/2024 - 02/2022 Dallas, TX

Blockchain verification and certification refer to the use of blockchain technology to securely verify and authenticate the authenticity of digital certificates, credentials, or other forms of documentation.

- Identifies potential security threats and vulnerabilities in the software and implements measures to mitigate them
- Designs intuitive and user-friendly interfaces for the software, focusing on usability, accessibility, and user engagement.
- Tests the software to identify bugs, errors, and performance issues, ensuring that it meets functional and non-functional requirements.

SKILLS

Blockchain Technology

Web3

JavaScript

Python

Solidity

Cryptography

Consensus Algorithms

Smart Contracts

Distributed Systems

Data Structures

OOPs

EDUCATION

High School Diploma

Shams-El-Deen High School

09/2012 - 06/2017 Lagos, NG

Bachelor of Computer Engineering

Lagos State University of Science and Technology

10/2018 - 06/2022 Lagos, NG

STRENGTHS

Collaboration

Working in a team motivates me to give 100% every day. Collective intelligence is the most powerful tool for companies.

Attention to Detail

Always pay strict attention to details because even an unimportant error could ruin the code.

Prioritizing

Prioritizing is why I use 100% of my energy and mental capacity for the most complex and thought-provoking tasks.

INDUSTRY EXPERTISE

DeFi Protocols

Solidity

Web Development
